Plum Creek Community Recreation Facility

In the fall of 2015, the Township Board of Supervisors settled on the purchase of a 100+ acre property that was formerly known as the "Gebhart Regional Airport"

This property, located just southwest of Airport Road and Mount Pleasant Road, with its existing flat topography, open fields, wooded areas and central location, make this parcel the most desirable location for a large scale community park project.

After a yearlong master study effort, involving numerous meetings with both public and Township Recreation Committee members, a plan has been adopted that solidifies the Township's vision to enhance the quality of community life while educating the public about how their lives are linked with the quality of the environment.

With the understanding that it is unrealistic to build a new park of this magnitude, as one single project, the construction has been divided into individual phases. Each subsequent phase of the park will build on to the previous to add additional facilities, equipment, fields, etc., helping the park slowly to become part of the everyday active and passive live of the community.

The Township now needs your help to make this first (and perhaps most important) phase a reality. The Township is soliciting (asking for) donations and/or pledges from you.

At this time, funds are being sought to begin Phase 1 of the park project. Funds collected will allow the Township to seek matching funds from the state, doubling the revenue that is available to construct the various Phase 1 improvements. Phase 1 currently has an estimated cost of \$ 676,200 and at completion would provide the following:

- A **Sidewalk** to connect nearby developments to the park for pedestrian access
- An improved **Access Drive** onto Mount Pleasant Road, permitting safe vehicular access to and from the park
- **Parking Facilities** to allow residents arriving by vehicle a safe, secure location to park their vehicle(s)
- **Amphitheater** to host shows, concerts, educational seminars, etc.
- **Linear Trail System**, allowing residents an opportunity to run, walk or bike the perimeter of the park property (eventually accessing other park facilities). The trail could also become the future home of local 5K races.
- **Playground**, allowing a safe place for children of all ages to play
- **Picnic Pavilions**, allowing residents to host parties, picnics, or team events
- A **Park Entrance Sign** to inform residents of the parks location and attract users
- Numerous park style **Benches** (to permit residents a place to simply sit and relax)

While the Township will be allocating monies towards this project, we are looking to the community to join us and help support this monumental project, and build a central place for community residents of all ages, races and religions to come, exercise and engage/interact with nature and to improve their personal physical and mental health.

Please consider participating in this Endowment Fund Campaign by making a pledge
