

7-26-20

Board of Supervisors:

This letter is to share our concerns in reference to ordinance 2020-C.

No thought was put into zoning these farms to residential. Some of the impact is as follows:

More traffic which is currently a big problem. Another major concern is the additional students. Another school will be in the future, thus increasing taxes. Next will be a fully paid fire department, thus increasing taxes. Next will be more police protection, where does it end. Conewago township is currently developed to 2035 plans. We are losing our agricultural heritage.

Also, the proposed developments on both sides of Oxford Ave. will totally destroy our current community and agricultural areas.

Fred & Judy Wilke
